

State Teachers Retirement System of Ohio
Retirement Plan Reselection

RETIREMENT PLAN RESELECTION

**Defined Contribution and Combined Plan Participants
Fifth Year of Membership**

20-660, 4/24/0

If you are a Defined Contribution Plan or Combined Plan participant in your fifth year of STRS Ohio membership, you are now eligible to reselect your retirement plan. This video provides an overview of the three plan options and how to notify STRS Ohio of your plan selection.

Four Steps. One Deadline.

STEP 1 — Know your plan options

STEP 2 — Review the plan features

STEP 3 — Select the best plan for you

STEP 4 — Notify STRS Ohio by June 1

While it's true selecting a retirement plan is a big decision, approaching it as four key steps may help simplify your plan selection decision.

1. Know your plan options
2. Review the plan features
3. Select the best plan for you
4. Notify STRS Ohio by June 1

It's Your Choice!

Defined Benefit Plan

Defined Contribution Plan

Combined Plan

What happens if you don't make a decision?

You will remain in your current plan.

Is your decision permanent? Yes.

Know Your Plan Options

STRS Ohio offers three retirement plans — the Defined Benefit Plan, the Defined Contribution Plan and the Combined Plan.

If you do not inform STRS Ohio of a plan change, you will remain in the plan you originally selected.

The plan you choose now will be your STRS Ohio retirement plan for as long as you remain a member of the system.

Let's look at the features of each of the three plans.

Defined Benefit Plan

Predictable monthly
retirement benefit

Least account
management by you

The Defined Benefit Plan offers a predictable monthly retirement benefit payment. Of the three retirement plans offered, it requires the least account management by you throughout your career.

Defined Benefit Plan

Retirement income

- **Age**
- **Years of service**
 - 2.2%* for each year
- **Final average salary (FAS)**
 - Five highest years of earnings

EXAMPLE

2.2%*

X 34 years

74.8% of FAS

*This multiplier is set by statute and is subject to change.

Under this plan, your retirement income is based on a calculation that uses your age, years of service and final average salary — FAS.

The FAS is the average of your five highest years of Ohio public earnings, and the retirement benefit will be based on 2.2% of your FAS for all years of service. For example, if you retire with 34 years, you would receive 74.8% of your FAS.

Defined Benefit Plan

Retirement benefit eligibility (unreduced)

- **Age 65 with five years, or**
- **Any age and 34 years — previously scheduled to increase to 35 years on Aug. 1, 2028**
 - 34-year requirement made permanent, per March 2024 action of the State Teachers Retirement Board

Reduced benefit eligibility criteria available on STRS Ohio website

Defined Benefit Plan participants can retire with an unreduced benefit at age 65 with five years of service or at any age with 34 years of service.

If a member retires before these age and service requirements are met, benefits are reduced. Those eligibility requirements are available on the STRS Ohio website.

Defined Benefit Plan

Other key features

- **Survivor and disability benefits**
- **Health care coverage in retirement***
- **May be eligible to purchase service credit**

*Coverage under the STRS Ohio Health Care Program is not guaranteed. STRS Ohio may change or discontinue all or part of the program for all or a class of eligible benefit recipients and covered dependents at any time.

Current Defined Benefit Plan benefits include survivor and disability benefits during your career when eligibility conditions are met. Access to health care coverage in retirement is also available to those meeting eligibility requirements.

Under this plan, you have the option to purchase service credit for certain types of employment if you are eligible. Doing so can increase the amount of your retirement benefit or may help you reach retirement eligibility sooner.

Defined Contribution Plan

You control entire
retirement account

Ability to make and
change investment choices

The Defined Contribution Plan offers you control over your entire retirement account. Under this plan you have the ability to monitor and change your investment choices to align them with your retirement goals.

Defined Contribution Plan

Retirement income — distributions at age 50

- **Lifetime annuity or lump-sum payment**
- **Payment based on:**
 - Amount contributed to your account
 - Performance of investments you select
 - Annuity rates at retirement

Under the Defined Contribution Plan, once you terminate all STRS Ohio-covered employment, distributions from your account are available beginning at age 50. You can take your retirement income as a lifetime annuity or lump-sum payment. The amount will be based upon your contributions and the amount of employer contributions added to your account, the performance of investments you select and annuity rates in effect at the time of your retirement.

Defined Contribution Plan

Other key features

- No survivor or disability benefits
- No access to STRS Ohio health care in retirement
- Not eligible to purchase credit

The Defined Contribution Plan does not offer survivor benefits and disability benefits during your career nor does it offer access to STRS Ohio health care in retirement.

You are not eligible to purchase service credit under this plan; however, you may make contributions on salary not earned if your teaching career is interrupted by military service, provided you meet the eligibility requirements.

Combined Plan

Predictable monthly benefit
(defined benefit portion)

Control of your
contributions (defined
contribution portion)

The Combined Plan includes features of both the Defined Benefit Plan and Defined Contribution Plan. It provides you with a predictable monthly benefit in retirement from the defined benefit portion and gives you control of your contributions for the defined contribution portion.

Combined Plan

Retirement income

- **Defined benefit portion: Age 60 with five years**
 - 1%* of FAS per year of service
- **Defined contribution portion: Distributions at age 50**
 - Lifetime annuity or lump sum
 - Payment based on deposits, investment performance and annuity rates

*This multiplier is set by statute and is subject to change.

Under this plan, retirement income is based on separate retirement benefits paid from the defined benefit and defined contribution portions of your account.

You are eligible to receive a retirement benefit from the defined benefit portion at age 60 with five years of service. That benefit will be 1% of your final average salary per year of service.

For the defined contribution portion, once you end all STRS Ohio-covered employment, distributions from your account are available beginning at age 50. You can take that retirement income as a lifetime annuity or lump-sum payment. The payment will be based upon the amount deposited to the defined contribution portion of your account, performance of investments you select and annuity rates in effect at the time of your retirement.

Combined Plan

Other key features

- **Survivor and disability benefits**
- **Health care coverage in retirement***
- **Purchasable service credit — teaching interrupted by military service or leave of absence**

*Coverage under the STRS Ohio Health Care Program is not guaranteed. STRS Ohio may change or discontinue all or part of the program for all or a class of eligible benefit recipients and covered dependents at any time.

Current Combined Plan benefits include survivor and disability benefits during your career and access to health care coverage in retirement upon meeting eligibility requirements.

Under this plan, you can also purchase service credit if teaching was interrupted by military service or a leave of absence.

Your STRS Ohio Account

Changing to the **Defined Benefit Plan**

- **Current account is closed**
 - Existing funds and future contributions used to fund benefits under **Defined Benefit Plan**
- **Defined benefit account opened**
 - Based on years of service accumulated if you had originally selected this plan
- **STRS Ohio will manage account**

If you decide to change retirement plans, what will happen to your STRS Ohio account?

If you select the Defined Benefit Plan, your current account will be closed. Funds from that account, as well as future member and employer contributions, will be used to fund the benefits that are available to you under the Defined Benefit Plan.

A defined benefit account will be created based on your years of service as if you had originally selected the Defined Benefit Plan when you made your initial retirement plan selection.

STRS Ohio will manage your account's contributions.

Your STRS Ohio Account

Changing to the **Defined Contribution Plan**

- **Combined Plan account is closed**
- **Defined Contribution Plan account is opened**
 - Will include (from Combined Plan): Account balance from defined contribution portion and withdrawal value from defined benefit portion
- **You will manage the entire account**

If you are currently a Combined Plan participant and change to the Defined Contribution Plan, your current account will be closed.

The new Defined Contribution Plan account will include the account balance, plus gains or losses, from the defined contribution portion of your Combined Plan account. It will also include the withdrawal value, if any, from the defined benefit portion. The withdrawal value — determined once final service credit has been reported at the end of the current fiscal year — will be added to your account following your current investment allocation instructions.

You will manage the entire Defined Contribution Plan account.

Your STRS Ohio Account

Changing to Combined Plan

- **Your existing contributions and earnings:** defined contribution portion
- **Your future contributions:** split between defined contribution and defined benefit portions
- **Employer contributions and earnings** (existing and future): defined benefit portion
- **Credited with service credit at the end of current fiscal year**
- **STRS Ohio manages defined benefit portion; you manage defined contribution portion**

If you are currently a Defined Contribution Plan participant and select the Combined Plan, your existing contributions and earnings will be deposited to the defined contribution portion of your new account.

Your future contributions will be split between the defined contribution and defined benefit portions.

Employer contributions and earnings currently included in your defined contribution account as well as future employer contributions will fund the defined benefit portion of your Combined Plan account.

You will also be credited with the years of service credit accumulated through the end of the current fiscal year.

STRS Ohio will manage the defined benefit portion of your account and you will manage the defined contribution portion.

The Three Plans at a Glance

	Defined Benefit Plan	Defined Contribution Plan	Combined Plan
Predictable monthly retirement benefit	✓		✓ (defined benefit portion)
Greatest portability		✓	
Greatest investment risk		✓	
Disability and survivor benefits during career*	✓		✓
Access to health care coverage in retirement*	✓		✓
Investments selected by you		✓ (entire account)	✓ (defined contribution portion)

* Upon meeting eligibility criteria.

Here is an overview of the key differences among the three plans.

The Defined Benefit Plan offers you the most predictability seeing as your monthly retirement benefit amount is defined by a calculation set by statute.

The Defined Contribution Plan offers the greatest portability, which can be an appealing feature if you don't plan to be a career educator. That plan also involves the most risk related to the impact of your investment selections on your retirement benefit amount.

Both the Defined Benefit Plan and Combined Plan offer disability benefits and survivor benefits during your career and access to health care coverage in retirement upon meeting eligibility requirements.

Under the Defined Contribution Plan and defined contribution portion of the Combined Plan, you are responsible for selecting investments from among the options available.

Informing STRS Ohio of Your Selection

Access your Online Personal Account on the STRS Ohio website.

- Select "Member Information" from the top menu.
- Select "Retirement Plan Reselection" under Useful Links.

Staying in your current plan? No action required.

**The information provided in this presentation is based on current rates, factors and laws — all of which are subject to change.*

Notify STRS Ohio by June 1

To complete your selection, access your Online Personal Account on the STRS Ohio website. Click on "Member Information" in the top menu and then "Retirement Plan Reselection" under Useful Links.

The deadline for making your plan selection is June 1. If you are staying in your current plan, no action is required.
