Items of Note

- Effective July 1, 2013, a portion of your member contribution (2%) is allocated to the defined benefit portion of your Combined Plan account to fund retirement benefits. The balance (12%) is allocated to the defined contribution portion of your account that you manage.
- If you end public employment in Ohio, you may be eligible to withdraw your account value, but doing so would forfeit your eligibility for STRS Ohio benefits. Further details are available at www.strsoh.org in the During Your Career section under Benefits While Teaching.
- Service retirement benefit recipients with 15 or more years of qualifying service credit have access to health care coverage and receive a premium subsidy through the STRS Ohio Health Care Program. (Members who retire Aug. 1, 2023, or later, will need 20 or more years.) The 2023 monthly premium under the Basic Plan for a member with 30 or more years of service and spouse (nonteacher), both without Medicare coverage, is \$389 for the member and \$1,143 for the spouse. A health care estimate calculator is available in your Online Personal Account at www.strsoh.org.
- Will your retirement benefit amount be enough to fund your future goals? Supplemental retirement plans, such as a 403(b) or a 457(b) governmental plan (offered through Ohio Deferred Compensation), can help you bridge the gap between your STRS Ohio retirement benefit amount and anticipated expenses. Further information is available at www.strsoh.org in the During Your Career section under Preparing for Retirement. (See "Supplemental Savings.")
